

Geography Curriculum Road Map

Curriculum Plan
In Acorn Class geography is interweaved with all learning linked to understanding the world- while no discrete units are taught children use their locality for understanding the world and making sense of place.

In KS1 we teach geography every term building on the progression from year 1 to 2 with similar units but deepening the understanding

In KS2 we teach geography every term building on progression from KS1 but deepening understanding even further. Fieldwork, mapping and vocabulary are woven throughout each unit of work.
